CALL FOR EXPERTS

OGS intends to confer 5 collaboration assignments (according to Italian Law, art.7, par. 6 D.Lgs 165/2001) within the project

"Libya Rebuild"

which promotes technology transfer to the world of fishing in Libya and participation in training activities in disciplines related to the blue economy in Libyan universities.

OBJECT OF THE ASSIGNMENTS

To support the activities of the OGS and, in particular, the ICAP structure, within the overall duration of the Libya Rebuild project with the aim of promoting technology transfer to the world of fishing in Libya and participating in training activities in disciplines related to the blue economy in the universities of Libya for the following profiles:

1. **“Research and Education Building Urban Institutions for Local Development. International Expert in charge of the Laboratory of Analysis”**

Specifically, expertise is required in the field of marine biology and laboratory analysis of water, fish production, mollusks, algae.

REQUIREMENTS

- Proven work experience in the field of laboratory controls and inspections for animal health, quality and safety of fresh products, in particular in the fisheries and aquaculture sectors at international level, and in particular in the EU and the Mediterranean basin;
- Knowledge of the main fish species caught and supplied in the southern region, the related refrigeration, processing and distribution phases, and the available facilities and the necessary controls and the required administrative documentation;
- Knowledge of industrial and artisanal fishing activities in North Africa, such as aquaculture and of the quality and traceability certifications, necessary for the introduction of EU and/or neighboring market products;
- Documented experience in the field of International Relations in the Mediterranean and in the field of the Blue economy;
- Knowledge of English.

DURATION

The assignment will last a total of 30 days. The renewal of the assignment is not foreseen, but an extension will be admissible if necessary to the completion of the program or project in question, without any increase to the agreed salary.

SALARY

The gross amount for the assignment is € 9,000.00.
