

Harmonization and Networking for contaminant assessment in the Ionian and Adriatic Seas

The Adriatic and Ionian Seas are considered hot spots of biodiversity, hosting habitats and communities of great environmental importance. At the same time, the ADRION area is intensively used and pollution is a key issue which requires a common evaluation and management approach. HarmoNIA intends to address the heterogeneity in methodological approaches and in the information used for Good Environmental Status assessment and to overcome the fragmentation in geographical coverage of data availability.

HarmoNIA Goals

to evaluate the risk of contaminant dispersion from offshore activities and accidents Share best processes

Focusing on pollution
from offshore drilling and
accidents, HarmoNIA will enhance
the capacity to tackle
environmental vulnerability and
safeguard ecosystem services
at transnational scale.

Strengthen the network of data infrastructures

for a harmonized implementation of marine environmental directives

to facilitate access and re-use of marine data

HarmoNIA Challenges

From good monitoring data to good decision making

upport a coordinated approa

- Harmonize monitoring protocols for reliable assessment of Good Environmental Status
- Towards a common strategy to assess contaminant dispersion risk
- Best practices to support a sustainable use of the sea: the offshore challenge

The project HarmoNIA supports

- Marine Strategy Framework Directive (MSFD, EU 2008)
- Protocols of the Barcelona Convention UNEP/MEDPOL
- Offshore Protocol (pollution from exploration and exploitation)
- Maritime Spatial Planning (MSP, 2014)

Partnership

- (OGS) Italy
- Italian National Institute for Environmental Protection and Research (ISPRA) - Italy
- Institute of Oceanography and Fisheries (IOF) Croatia
 Ruder Boskovic Institute (RBI) Croatia
- Hellenic Centre for Marine Research (HCMR) Greece
 Region of Western Greece (RWG) Greece
 National Institute of Biology (NIB) Slovenia

- Slovenian Environment Agency (ARSO) Slovenia
 Public institution University of Montenegro Institute of Marine Biology (UoM-IMB) - Montenegro
- (AUT) Albania

Associated Partners

- the Safety Also Environmental of Mining and Energy Activities National Mining Office for Hydrocarbons and Georesources -
- Durres Municipality Albania
 Ministry of Sustainable Development and Tourism Montenegro
 Ministry of Environmental and Nature Protection Croatia

PRIORITY AXIS 2: SUSTAINABLE REGION

Project budget in EUR: 1,290,978.60 ERDF and IPA II Funding in EUR: 1,097,331.80 Project Duration: 1 February 2018 — 30 November 2019
